

ADDING IT UP: THE IRON MOUNTAIN ADVANTAGE

When you partner with us to achieve excellence in data backup, recovery and archiving, the numbers speak for themselves.

CASE by CASE

The Watson Clinic uses our secure underground tape-vaulting services to

store **90TB** of images for **160,000** radiology exams annually.

Paramount Pictures has worked with us to consolidate, digitize and catalogue its film and video assets, collected from

26 locations, into **three central vaults**.

We're helping the Los Angeles Lakers basketball team digitize **5,000** hours and **65** years of game footage for its new Web archive.

Researchers at CyArk are using advanced imaging tools to create and archive models of an ancient Mayan city and other cultural heritage sites, stored in a **two petabyte** Iron Mountain archive.

IRON MOUNTAIN RECOMMENDS:

Trust us with your company's most important assets; **94%** of our fellow Fortune 1000 companies do. Our services are...

SECURE: Underground vaults and data centers keep information safe from natural disasters and prying eyes.

FLEXIBLE: Custom solutions can address your organization's specific data backup, recovery and archiving demands.

RELIABLE: Iron Mountain data management services have safeguarded some of the world's most important business and governmental data since 1951.
